

The winners are:

Wednesday 31st May

Oral Abstracts:

- **Mary-Lucy Marquez** – (OP0005) Can axial spondyloarthritis unequivocally be diagnosed by rheumatologists in patients with chronic back pain of less than two years duration? Main result of the SPondyloArthritis Caught Early (SPACE) cohort; 13:00-14:00 (CEST), Gold Room; [Calendar invite \(Abstract Opening Plenary\)](#).
- **Nienke Blomberg** – (OP0016) Abatacept to Silence anti-Citrullinated protein Antibody-expressing B cells in Rheumatoid Arthritis: the ASCARA trial; 16:30-18:00 (CEST), Amber 3+4; [Calendar invite \(Adaptive immunity \[T cells and B cells\] in rheumatic diseases\)](#).

Thursday 1st June

Oral Abstracts: 10:30-12:00 (CEST), [Amber 1+2](#); [Calendar invite \(Genetics and EpiGenetics of RMDs\)](#):

- **Shinji Izuka** - (OP0096) Immunophenotyping-based transcriptome analysis on systemic immune-mediated diseases.
- **Stephanie Ling** – (OP0103) Analysis of protein quantitative trait loci to identify genetic biomarkers of treatment response to etanercept in patients with rheumatoid arthritis.

Poster Abstracts:

- **Kensuke Suga** – (POS0001) A novel methotrexate target Tp63 suppresses Foxp3 expression and exacerbates autoimmune arthritis; 12:00-13:30 (CEST), Poster Tour Auditorium 1; [Calendar Invite \(Adaptive immunity \[T cells and B cells\] in rheumatic diseases\)](#).
- **Lisa Christ** – (POS0694) Molecular Phenotyping of Giant Cell Arteritis Patients: Analysis of the Serum Protein Profile Using a High Throughput Method; 09:30-10:30 (CEST), Poster View 2.

Friday 2nd June

Oral Abstracts:

- **Anne Kerola** – (OP0263) Inflammatory Rheumatic Diseases Have Broad Impact on Reproductive Health – a Nationwide Evaluation and Systematic Comparison Across 20 Immune-mediated Inflammatory Diseases; 10:30-12:00 (CEST), Space 2; [Calendar Invite \(New insights from epidemiology and public health\)](#).

Poster Abstracts:

- **Gerasimos Evangelatos** – (POS0172) Arterial stiffness in Antiphospholipid Syndrome: comparison with diabetes mellitus and healthy controls; 12:00-13:30 (CEST), Poster Tour Auditorium 4; [Calendar Invite \(Systemic lupus erythematosus, Sjögren's syndrome and anti-phospholipid syndrome: clinical aspects\)](#).

Saturday 3rd June

Poster Abstracts:

- **Olivier Fakih** – (POS0301) Impact of NSAIDs on 8-year incidence of major cardiovascular events in patients with ankylosing spondylitis; 10:00-11:30 (CEST), Poster Tour Auditorium 4; [Calendar Invite \(Clinical aspects of spondyloarthritis\)](#).
- **Matija Bajželj** - (POS1439) Deregulation in adult IgA vasculitis skin as the basis for the discovery of novel serum biomarkers; 10:30 (CEST); Poster View 6.

We will be advertising the selected abstracts on our social media before and during the congress.
