

Would you like the opportunity for individual feedback and coaching on your PowerPoint presentation slides?

Applications open on the **14th May** for one of the **25 places** on offer in the first:

Congress Presentation
Masterclass June 2020

Practical skills – virtually!

EMEUNET have invited Catherine Haines and Loreto Carmona to work with members to share some insights from witnessing several thousand PowerPoint talks between them.

Webinar for larger number of participants

We hope to follow up with a webinar, to discuss some of the lessons learned and for those, not in the first 25 lucky submitters, to be able to participate in an online chat and, with permission, maybe even share some before and after examples.

Dr Catherine Haines, Eular Educationalist

Professor Loreto Carmona, Eular

You are welcome to **immediately register your interest in a masterclass feedback place and/or attendance at the webinar by emailing:**

thecatherinehaines@gmail.com

You will receive a short article, presentation and checklist summarising current good practice to help you prepare your presentation for submission to the Masterclass. You will **NOT** receive feedback on the scientific content!

From **14th of May**, if you are one of the first 25 to submit a PowerPoint presentation you will receive individual feedback on how to improve.

(Maximum 10 slides, include narration if you wish, on any topic, specifying one aspect on which you would particularly welcome feedback)

If you make improvements and re-submit, you will receive certification of attendance.
